

# STARTXPEDITION

## Brawn VS Brainiacs

IEEE DKTE Student Branch organized an exhilarating event named “STARTEXPEDITION” which took place on October 17, 2023. The event featured three engaging competitions, including the highlight event, Brawn Vs Brainiacs . This event was a collaborative effort between the IEEE AESS and CS branch members. Brawn Vs Brainiacs aimed to combine mental and physical strengths, along with intelligence, in a series of challenging competitions. The event saw enthusiastic participation from a total of 30 teams, each comprising three members. This event tested participants on both mental acuity and physical prowess. Teams engaged in a series of challenges that required a combination of intelligence, strategic thinking, and physical stamina. The teams exhibited high spirits, sportsmanship, and camaraderie throughout the competition. The winners of the Brawn Vs Brainiacs event were Giriraj Gattani and his team, demonstrating a remarkable blend of mental and physical strength.

The event was successfully organized by members from both the IEEE AESS and CS branches, highlighting the collaborative efforts of the IEEE DKTE Student Branch. Brawn Vs Brainiacs was not only a competitive event but also a platform for students to showcase their talents and skills. The combination of mental and physical challenges made the event unique and engaging for participants and spectators alike. The success of the event was a testament to the hard work and dedication of the organizing team, as well as the active participation of the IEEE DKTE Student Branch members.
