Participants (Class/Count)	All Students including Inter-College
Activity Summary	
<p>3 October 2023, IEEE Day is a day to celebrate the achievements and innovations of the global IEEE community. To mark this occasion, the “Code Spark” Coding Contest was organized, providing a platform for coding enthusiasts to show their skills. The Contest was divided into two sub-events: Novice and Expert.</p> <p>❖ Event Details:</p> <p>The contest was conducted between 7.30 pm to 11.45 pm on 3 October 2023. The contest was held which consisted of 2 events and various rounds included in it:</p> <p>1) NOVICE:</p> <p>This event was designed for participants with basic coding skills and aimed to encourage newcomers to coding and programming. This event is specially designed for first year and second year students.</p> <p>In the contest, participants were presented with a set of beginner friendly coding challenges that tested their problem-solving abilities and understanding of fundamental programming concepts.</p> <p>Top performers in the Novice event were awarded prizes, and all participants received certificates of participation.</p> <p>2) EXPERT:</p> <p>This event was designed for participants with advanced coding skills and who were ready for more complex challenges. This event is specially designed for third year students.</p> <p>In the contest, participants were presented with a set of complex and thought-provoking coding challenges that were designed to push boundaries of their programming skills. The Expert event was competitive, with participants competing for top positions and prizes. Top performers in the Novice event were awarded prizes, and all participants received certificates of participation.</p>
