

STARTXPEDITION

Magical Hunt

DKTE Textile and Engineering Institute, in collaboration with IEEE Computer Society (IEEE CS) and IEEE Aerospace and Electronic Systems Society (IEEE AESS) under Student Branch Code SBC17301B, celebrated IEEE Day with the main event "StartXPedition." Within this event, three sub-events were organized, one of which was the "Magical Hunt." A total of 150 students participated, including students from other colleges.

The "Magical Hunt" was a highly creative activity where participants were provided with encoded string patterns. Their challenge was to decode these strings and uncover the next clue in the sequence. This event aimed to stimulate problem-solving skills, logical thinking, and teamwork among the participants. The incorporation of inter-college participation added a competitive and collaborative dimension to the event, fostering a spirit of innovation and knowledge exchange.

The success of the "Magical Hunt" not only showcased the technical prowess of the participants but also highlighted the ability of the organizers to design engaging and intellectually stimulating activities. Overall, this sub-event contributed significantly to the success of the IEEE Day celebration at DKTE Textile and Engineering Institute.

The poster for the StartXPedition event features a dark blue background with a circuit-like pattern. At the top left is the IEEE Day logo, and at the top center is the IEEE Student Branch logo. The event title 'StartXPedition' is prominently displayed in a large, stylized font. Below the title, the date and time are listed. Three event categories are detailed: Idea Igniters, Magical Hunt, and Brawn vs Brainiacs, each with its own set of rounds and participant limits. A QR code is located on the right side. At the bottom, contact details, entry fees, and a registration link are provided.
